

## Arkansas State Police Preferred Drug List (PDL) - Effective July 2024

This PDL is a list of the most commonly prescribed drugs. It is not all-inclusive and is not a guarantee of coverage. Plan Benefit Design is the final determinate of coverage. For drugs not listed, please call the pharmacy program number listed on the back of your ID card for benefit coverage information.

**PLEASE NOTE:** Use of generic drugs can save both you and your health plan money. Generics that are new to the market will require a copayment equal to its branded product. These are indicated in the PDL with **\*(NG)** and are shown in bold type. These new generics will not have the standard Tier 1 copayment that older generic products have. In addition, brand-name medications that are available in the generic form may still appear in a tiered copay box, however, they will require a generic drug copayment **PLUS** the difference in the plan's cost between the generic and equivalent brand-name drug. If the brand name product is a reference-priced medication **\*(RP)**, the equivalent new generic will also become reference-priced instead of applying the difference in brand/generic cost.

**Specialty drugs** may require prior authorization (PA) by EBRx **(833) 995-0946** to ensure appropriate usage. These medications are indicated in the PDL located under Tier 4.

**Compounded medications** require a Tier 3 copay.

**Out of pocket expenses for Excluded drugs and Reference-Priced drugs will not apply to the out-of-pocket maximum threshold**

**Key:** Certain drugs (\*) may be subject to Day Supply (DS), Quantity Limits (QL), Prior Authorization (PA), Step Therapy (ST), Contingent Therapy (CT), New Generics (NG) or Reference Pricing (RP) requirements according to Benefit Design. **Items indicated as \*(RP) require special copayment pricing and do not apply to the standard tier copayments. This PDL is subject to change at any time.**
